

# Fueling Your Fleet with Biofuels:

## A Free Workshop on Ethanol and Biodiesel Infrastructure Partnerships for Clean Cities Stakeholders and EPAct-Covered Fleets

March 9, 2017 • 9am • Des Moines, Iowa

The National Renewable Energy Laboratory, in support of the U.S. Department of Energy and in partnership with Iowa Clean Cities, invites fleet operators and other stakeholders interested in ethanol and biodiesel, including [Energy Policy Act \(EPAct\)-covered](#) and non-covered fleets, to a **free** educational forum.

Thursday, March 9, 2017  
Registration at 9:00 am  
Program begins at 9:30am  
Concludes at 1:45pm

William C. Knapp  
Varied Industries Building  
Iowa State Fairgrounds  
3000 E Grand Ave  
Des Moines, IA 50317

Fleets and other stakeholders  
interested in ethanol and biodiesel  
infrastructure

*Lunch provided, courtesy of Renewable Energy Group (REG).*

Stay for an afternoon [Is Iowa Ready for Cars of the Future](#) session on connected and automated vehicles.

This free workshop provides a forum for alternative fuel stakeholders, including EPAct-covered and non-covered fleets, to exchange information with like-minded fleets on overcoming barriers to ethanol and biodiesel deployment. Experts will share detailed information on infrastructure deployment, as well as web tools that can help fleets identify potential fueling partnerships and areas of opportunity for increased fleet ethanol and biodiesel use. Across the nation, [similar workshops](#) have fostered partnerships, assisted fleets with EPAct compliance, and provided the tools, data, and contacts fleets need to make informed decisions.
